

SUMMER 2023

# Adult Dental Assistant Radiology Internship

Looking to gain hands-on experience in adult dental radiology? Our internship course is designed to provide you with comprehensive training in all aspects of adult dental radiology. You'll also be able to practice your skills in a real-world setting, working alongside our dental experts. Don't miss out on this unique opportunity to advance your career in the dental industry.

## Course Description

This comprehensive back-office dental class is designed for adults interested in pursuing a career in dental assisting. With a focus on radiology certification and hands-on internship experience, students will learn essential skills for assisting dental professionals in the back office. Topics covered include dental anatomy and terminology, patient communication, infection control, radiology procedures, and more. The program also includes a supervised internship component, allowing students to apply their knowledge in a real-world setting.
